The decision regarding the acceptance/rejection of each abstract/paper will be communicated with the corresponding author within a week of submission.

INVITED SPEAKERS: We are pleased to announce that distinguished colleagues **John Rust** and **Alexander Redlein** will join the conference as keynote speakers:

John Rust is professor of economics at the *Georgetown University*. Before joining *Georgetown University*, he taught at the *University of Wisconsin*, *Yale University* and *University of Maryland*. He has published many papers in the most of the top economic journals including *American Economic Review*, *Journal of Political Economy*, and *Review of Economic Studies*. He has also served as the associate editor at top journals such as *Econometrica* and *Journal of Econometrics*, and as the Co-Editor at *Journal of Applied Econometrics*. **Professor Rust** is the best known as one of the founding fathers of the structural estimation of dynamic discrete choice models and the developer of the nested fixed point maximum likelihood estimator which is widely used in structural econometrics. He published papers on broad range of topics such as social security, retirement, disability insurance, nuclear power industry, real estate economics, rental car industry, transportation research, auction markets, computational economics, and dynamic games. He holds a PhD in economics from MIT.

Alexander Redlein is professor of Real Estate and Facility Management at the *Vienna University of Technology*, president of *REUG* and past president of *IFMA Austria*. He is also executive board member of *EuroFM*. After his interdisciplinary studies at the *Vienna University of Technology* and at the *Vienna University of Economics and Business Administration* he is now engaged in research, education and consultancy in the area of FM. He is also the head of the Institute for Real Estate and Facility Management (IFM) and MBA for FM at the *Vienna University of Technology*. Beside his research activities, he is responsible for technology transfer between the university and CEE companies. In numerous projects he acted as a strategic advisor, set up FM concepts for international companies and municipalities. He optimized their FM processes, ICT and workplace management. He conducted international studies about the status quo of FM in CEE and about the value added by FM/RE. He is a member of the workplace evolutionary network. His workplace research concentrates on the influence of workplace on the productivity and well-being of the employees.
